SUMMARY

Creative Technologies student focused on immersive design, interactive media, digital visualization, and visual storytelling. Experienced with VR design workflows, UI and UX prototyping, 3D web environments, Unreal Engine, Twinmotion, Revit, Figma, and animation production. Seeking roles in visualization, digital design, UI/UX, immersive media, or creative technology.

EDUCATION

Virginia Tech, Blacksburg, VA

B.F.A. Creative Technologies, May 2026

SELECTED PROJECTS

Mythron Animated Short

- Created an original hand drawn 2D animated short with character design, environment design, cinematic staging, and sound design
- Presented the work in a gallery setting and received strong feedback for pacing, atmosphere, camera movement, and action clarity

Immersive Architectural Visualization

- Developed a VR design and visualization project using Revit, Twinmotion, AI ideation, mood boards, and storyboard planning
- Created interior and exterior concepts across present, past, future, and alternate world design directions

Cabinet of Curiosities 3D Web Experience

- Built an interactive web-based 3D space using HTML, CSS, JavaScript, and Three.js
- Designed clickable objects and spatial navigation to present projects through an immersive digital gallery format

Bus App Redesign

- Collaborated on a Figma redesign focused on clearer transit flows, route access, stop information, and live arrivals
- Created screen hierarchy and a short prototype to improve usability and visual consistency

TECHNICAL SKILLS

Immersive and 3D: Unreal Engine, Twinmotion, Revit, Maya, Blender, Fusion 360, 3D printing, VR design
UI, UX, and AI Design: Figma, wireframing, prototyping, interaction design, visual hierarchy, AI interface critique

Web and Creative Coding: HTML, CSS, JavaScript, Three.js, p5.js, Python

Visual Media: Clip Studio Paint, Photoshop, Illustrator, After Effects, Premiere Pro, Adobe Audition

LEADERSHIP AND ACTIVITIES

Virginia Tech Corps of Cadets, Virginia Tech, 2021 to 2025

- Developed leadership, accountability, mentorship, and time sensitive project execution in a structured environment

Citizen Leader Track, Virginia Tech, 2023 to 2025

- Completed leadership, ethics, professional etiquette, and mentorship seminars

Air Force ROTC, Virginia Tech, 2021 to 2023

- Participated in physical training, professional development, teamwork, and hands on leadership labs

Black Cadet Organization, Virginia Tech, 2021 to 2025

- Supported volunteer work, mentorship, community involvement, and peer support within the Corps

ACADEMIC HONORS

Commandant's List, Virginia Tech, Fall 2021
